

## FROM OVER THE SEA

Cholera Has a Firm Hold on Central Europe

## OWING TO RUSSIAN LIES

Bismarck's Anniversary of His Birth Was Celebrated Throughout Germany, Despite the Police.

LONDON, April 1.—The Easter vacation has begun in the shadow of the approaching cholera epidemic. In Russia the authorities have been forced to acknowledge the presence of the disease in several cities and provinces which, according to all former official reports, has been absent since December 1. German and Austrian physicians, returning from tours of the provinces in question, however, state that there has not been a day since last June when there was the slightest evidence that the cholera was suppressed in any government south of St. Petersburg. In fourteen governments of southern, south-eastern, eastern and north-eastern Russia the deaths have been numbered by the score everywhere, during the last six months. These governments include within their boundaries most of the black earth region, the lands which are known as the granary of Russia. Hence to the horrors of epidemic has been added the appalling prospect of a return of the famine with typhus and other fevers in its wake. An examination of the manner in which Europe has been lulled into a feeling of comparative security by false reports is found in the recent conditions in the government of Poland. The government has maintained persistently that Poland was entitled to a clean bill of health. Three Huda Pesth physicians who have just returned from the government, which they visited in a semi-official capacity, report that the number of deaths from cholera in January was between 300 and 400; in February, somewhat more than 600.

## Will Resume Quarantine.

The deplorable results of the Russian system of deception in health reports have become suddenly apparent. In eight Galician villages near the Russian frontier, the cholera has already taken its toll, and in four more suspicious cases of cholera have been isolated. All of twelve villages have been frequented during the winter by Russian peasants, who cross the border to work in the Galician forests. The strictness of the watch on the border had been relaxed in view of the untrustworthy assurances of the Russian authorities, and therefore these men from infected districts found it difficult in their migration, which never would have been permitted had the fact of the continued spread of the disease been known to the health office in Vienna. The latest advice from Prussia indicates that even the slightest cases have been isolated. Quarantine also is in danger for two cases of cholera were discovered in Butschuk on Wednesday. Eminent physicians in Vienna and Berlin are already prophesying that within four weeks all central Europe will be obliged to revive the active campaign of last summer against the epidemic.

## Praise for Bismarck.

Germany has had this week a diversion of the heavy political atmosphere which has oppressed the empire since the dissolution of the Reichstag and a cabinet crisis became imminent. The celebration of Bismarck's eightieth birthday was accompanied by exceptional demonstrations of cordiality and enthusiasm because the Hamburg authorities were foolish enough to suppress as much as possible of the festivities in Friedrichsruhe. When the police order went forth on Tuesday that no torchlight procession would be permitted in Friedrichsruhe, indignation protests were raised by all the newspapers and parties throughout the empire. The excuse of the police that a torchlight procession on Good Friday would be unwelcome was generally ridiculed in view of the fact that when in power Bismarck was honored with such demonstrations regardless of holidays and their observance.

The reaction against the order of the Hamburg police was inaugurated in Frankfurt where a great meeting of his friends was hastily gathered to eat and drink and hear speeches in his honor. The meeting was addressed by Dr. Oetken, professor of history at Gießen university, a liberal, conservative and unprejudiced investigator. Dr. Oetken did not hesitate to proclaim Bismarck the greatest statesman of Germany since Stein and Hardenberg, and the only one who Germany had produced in the last fifty years who had the ability to unite the empire. Every student of German history, he added, must regret that such a man had been relegated to history while the fate of the German people was confined to the care of inexperienced hands. The stir upon the emperor and Chancellor Von Caprivi was greeted with repeated cheers. The number of pilgrims to Friedrichsruhe today has been greatly increased in consequence of such utterances from the platform and in the newspapers. That Prince Bismarck has not lost his hold upon more conspicuous Germans is shown by the list of small sovereigns who have telegraphed to him today their congratulations. Among them are the king of Saxony, the grand duke of Saxe-Altenburg, the grand duke of Baden and Prince Luitpold of Bavaria. Dispatches were received at Friedrichsruhe that evening from Berlin, Dr. Schuler, and Alexander III, and some have been received from scores of persons of national reputation.

## NEW FRENCH CABINET.

It is Simply Intended to Plead to Budgets at Once.

PARIS, April 1.—M. Miller has selected the following cabinet: Felix Faure, premier and minister of commerce; M. Charles Dupuy, minister of the interior; M. Jacques L. Delors, minister of justice; M. Raymond Poincaré, minister of finance; M. Eugène Spuller, minister of education; M. François Vian, minister of public work; Ad-

## TEN MORE ARE DEAD

Fearful Disaster at the Neilson Shamokin Colliery.

## FIRED BY A MINER'S LAMP

The Blaze Caught the Oil House and Filled the Mine With Smoke, Suffocating the Unfortunates.

SHAMOKIN, Pa., April 1.—One of the most distressing disasters that ever occurred in the anthracite region followed the explosion of a lamp in the hands of a Hungarian employee in the Neilson colliery, near here, this morning. The colliery, which is operated by J. Langdon & Co., is one of the largest and best known in the region, paying superior wages and furnishing work to its 1,000 employees the year round.

Fire followed the explosion and the

## ASSUMES SERIOUS ASPECTS.

The Cutters' Strike in New York May Cause Others.

NEW YORK, April 1.—The injunction granted today against the locked out garment cutters restrains the United "Garment Cutters of America" from interfering with the business of Kohn, S. & Co., Shier, Sier & Burnheimer, and Holtsman, by issuing circulars and in any

way pushing the boycott against them. President Hornthal of the Manufacturers' association said that the names of the four firms had been inadvertently left out of the original application. It is believed, however, that the real reason is that the manufacturers became convinced that the leaders of the locked out men have been cleverly evading the first order of Judge Lawrence without making themselves liable for contempt of court.

## CLEARED THREE MILLIONS.

Cudaby and Fairbanks Cause a Cyclone on the Board of Trade.

CHICAGO, April 1.—The great provision deal on the board of trade which for twelve months has kept the price of pork, lard and short ribs under the domination of two firms, was loosened up today. Cudaby & Co. and N. K. Fairbank & Co. have since March, 1892, been in command of the provision market, have abdicated. They are satisfied with the \$100,000 which they are said to have cleared upon their twelve months' manipulation. The markets for provisions today, without the support which those firms have been in the habit of giving them, were extremely weak. There was a drop of \$1 per barrel in pork, and \$1 per 100 pounds in lard. When the crowd saw that the hog notes were abandoned by their late supporters there was a general rush to unload, resulting in the heavy decline referred to.

## KILLED LOVE AND HIMSELF.

CHICAGO, April 1.—Miss Edith Clark of Spokane, Washington, a member of the Northwestern university freshmen class, was shot and instantly killed about 7 o'clock this evening by Fross Smith of Evanston. Smith then shot himself and died. The cause of the tragedy was Miss Clark's rejection of Smith as a suitor.

## Train Robber Sentenced.

TRIDENT, Cal., April 1.—The first conviction in the Santa Fe train robbery case was had today when the jury brought in a verdict finding Frank Brown guilty on two counts. The other cases have gone over for another month.

## Killed by an Elevator.

LEWISTON, Va., April 1.—The Miller safe in the Union passenger station of the Baltimore & Ohio railroad was crushed last night by an unskilled workman and killed nearly \$400. The safe was pulled out of the building on the rear platform under the glass of an iron light and the door smashed off with crude tools.

## Killed by an Elevator.

LEWISTON, Va., April 1.—The Miller safe in the Union passenger station of the Baltimore & Ohio railroad was crushed last night by an unskilled workman and killed nearly \$400. The safe was pulled out of the building on the rear platform under the glass of an iron light and the door smashed off with crude tools.

The safe was pulled out of the building on the rear platform under the glass of an iron light and the door smashed off with crude tools.

## TO OPEN THE STRIP

The Cherokee Council Ratifies the Amended Treaty.

## MAY BE OPENED BY JULY FIRST

Boomers Along the Border Are Rejoicing and Think That Peel is Mistaken in the Date.

TALLAHASSEE, Fla., April 1.—The opening of the Cherokee strip is an assured fact. After a stormy debate, which lasted all day, the ratification of the amended treaty was passed late this evening by both the house and the senate of the national council. Chief Harris will sign it at once, and then nothing will remain to be done but to pay over the money to the delegation which will be appointed to visit Washington in accordance with the terms of the bill. Congressmen Peel gives it his opinion that the strip cannot possibly be thrown open before July 1, as besides the allotments to the Cherokees and the settlement of the intruder question, the Tokawa lands will all have to be surveyed. There is general rejoicing here and all along the border tonight over the action of the council, which was more prompt than was looked for.

## ROBERTS RESIGNS.

The New York Sub-Treasury Funds Must Be Counted.

WASHINGTON, April 1.—United States Treasurer Nebeker will take charge of the New York sub-treasury on Monday morning, relieving Sub-Treasurer Roberts, whose commission as sub-treasurer at New York expires today. Accompanying Mr. Nebeker will be eight treasury experts who will remain with him at the sub-treasury for a month or more until the transfer of the money in the sub-treasury is effected. Fifteen or twenty other treasury officials will go over to New York during the week to assist in counting the money and making the transfer, which, it is thought, will take a month to complete. The president, through Secretary Carlisle, has accepted the resignation of Sub-Treasurer Roberts, to take effect today. It was tendered some months ago and Mr. Roberts has at various times upon his prompt acceptance. Until the transfer of the money in the sub-treasury at New York is made either to the treasurer of the United States or the new sub-treasurer the bond of Mr. Roberts is not relieved from liability. It is thought that a new sub-treasurer at New York will be appointed by the president during next week. During Treasurer Nebeker's absence, Assistant Treasurer Whipple will be acting treasurer. His resignation has been in the hands of the president for some time, but has not been accepted.

## ORDERS OUT TROOPS.

Hoke Thinks That the Locke Faction is Too Warlike.

WASHINGTON, April 1.—Secretary Hoke Smith tonight received a telegram from Indian Agent Bennett, en route to Antlers, the scene of the threatened Choctaw trouble, stating that the armed forces of each faction were rapidly gathering and moving nearer each other, that the situation was extremely critical; also that great danger existed to life and property in the vicinity, and that he was powerless to do anything without the immediate presence of troops. The secretary at once transmitted the telegram to the secretary of war for his information and action. Immediately upon the receipt of the telegram General Schofield sent a telegram to General Miles at Chicago, directing him to send a detachment of troops to the scene of the trouble.

## IT CANNOT BE HARRISON.

Circumstances Prevent His Leading the Loyol Legion.

CLEVELAND, Ohio, April 1.—The attempt to make ex-President Harrison the commander of the Loyol Legion in place of ex-President Hayes, deceased, received a set back in this city tonight. In order to be senior commander of the Loyol Legion it is necessary that the applicant for the office shall have first been a state commander. The plan was to make ex-President Harrison commander of the Legion of this state. From that position it would have been an easy matter to promote him to the head of the order. A straw vote was taken among the Cleveland members of the number of fifty and it was found that their preference was ex-Governor Cox. As the Cleveland members can prevent the election of a candidate that is not suitable to them, it is conceded that ex-President Harrison will not be elected to the command of the Loyol Legion.

## CONGRESSMAN HOOKER HURT.

He Was Struck by a Cable Car and May Die.

WASHINGTON, April 1.—Representative Charles R. Hooker of Mississippi met with a painful and probably fatal accident this evening. In attempting to alight from a cable car at the corner of Fairview and Congress streets he was struck by one coming in an opposite direction and violently thrown to the track. He was at once removed to the emergency hospital, where an examination disclosed the fact that in addition to sustaining several severe bruises he received internal injuries. It is impossible to state whether the injuries will prove fatal, but his condition is considered serious.

## KILLED BY AN ELEVATOR.

LEWISTON, Va., April 1.—The Miller safe in the Union passenger station of the Baltimore & Ohio railroad was crushed last night by an unskilled workman and killed nearly \$400. The safe was pulled out of the building on the rear platform under the glass of an iron light and the door smashed off with crude tools.

## KILLED BY AN ELEVATOR.

LEWISTON, Va., April 1.—The Miller safe in the Union passenger station of the Baltimore & Ohio railroad was crushed last night by an unskilled workman and killed nearly \$400. The safe was pulled out of the building on the rear platform under the glass of an iron light and the door smashed off with crude tools.

## KILLED BY AN ELEVATOR.

LEWISTON, Va., April 1.—The Miller safe in the Union passenger station of the Baltimore & Ohio railroad was crushed last night by an unskilled workman and killed nearly \$400. The safe was pulled out of the building on the rear platform under the glass of an iron light and the door smashed off with crude tools.

## KILLED BY AN ELEVATOR.

LEWISTON, Va., April 1.—The Miller safe in the Union passenger station of the Baltimore & Ohio railroad was crushed last night by an unskilled workman and killed nearly \$400. The safe was pulled out of the building on the rear platform under the glass of an iron light and the door smashed off with crude tools.

## KILLED BY AN ELEVATOR.

LEWISTON, Va., April 1.—The Miller safe in the Union passenger station of the Baltimore & Ohio railroad was crushed last night by an unskilled workman and killed nearly \$400.
